## Premature termination of a Clinical Trial

**Full title of the clinical Trial:** A single-center, randomized, double-blind, placebo-controlled trial evaluating the efficacy and safety of Dapsone in adult patients with cutaneous leukocytoclastic vasculitis

**EudraCT Number:** 2005-001245-41

**Sponsor:** Medical University of Graz

**Represented by (name):** Univ. Prof. Dr. Peter Wolf

**Reason for premature termination of the clinical trial:** the study was closed because of the unclear inclusion criteria for leukocytoclastic vasculitis. No patient was included.

**Study results (if available):** not available

**Date and Signature of Sponsor representative:**

December 17, 2024
