30th October 2008

Dear Information Processing Unit,

Re : 2006-006617-32 - Prospective randomised study comparing articaïne and lignocaine.

Please find attached an end of trial form for the above mentioned trial.

Changes to the resourcing at the investigator site for this trial have resulted in substantial delay to its commencement. It has now been decided that the study will not commence at all. No patients were ever enrolled.

I would be grateful if you can accept this end of trial form in order to close your files.

Please do not hesitate to contact me if you require any further documentation.

Yours sincerely

Rebecca Newton
Clinical Research Associate
