Subject
Results posting of 2007-001089-33

Dear EMA,

On behalf of the Prof. dr. G.A.P.J.M. Rongen as the 2nd Sponsor of this study, I hereby confirm that the screening and inclusion of subjects in the following clinical trial protocol: "Infusion of a single dose of erythropoietin to Prevent Injury in an Ischemia Reperfusion forearm model - A randomised cross-over study to evaluate if infusion of a single dose of EPO protects against ischemia-reperfusion injury in man" with EudraCT number **2007-001089-33**, had never started.

The reason for this is that the study product, Annexin A5, did not come available.

We hope this information is satisfactory to finalize results posting.

With kind regards,

Arjan Nootboom,
Research Consultant at RTC Clinical Studies
Radboudumc
arjan.nootboom@radboudumc.nl

cc Prof.dr. G.A.P.J.M Rongen
