The undersigned Prof. Giovanni Brandi, as PI of the study "Role of ultrasound with contrast medium (CEUS) in the evaluation of the early efficacy of anti-angiogenic therapy in patients with liver metastases from colorectal cancer", registered at the EC AVEC with code 014/2007 / U / Sper

### DECLARES

That the clinical study was never started in our center for the following reason: lack of patients with adequate characteristics reported in the study protocol. Therefore, the activities related to the study are to be considered concluded. No patients have ever been enrolled in our center, nor do we intend to proceed with enrollment.

Bologna, 07/06/2022
