

EudraCT number: 2007-005461-35

Title: Individualización de la dosis de docetaxel en el tratamiento de pacientes oncológicos mediante monitorización terapéutica de los niveles plasmáticos de docetaxel libre, tras test de minidosis y ajuste farmacocinético; estudio clínico aleatorizado.

Code: VH-TXT-01

Sponsor: Servicio de Oncología. Hospital Vall d'Hebron

Justification of termination of the trial

The main goal of this study was to check the hematological toxicity (Grade 4 neutropenia) in first cycle of chemotherapy with Docetaxel.

This trial was never started, due to lack of recruitment.

There are not available results.

End of trial is considered as April 4th 2008.
