

# Statement of early discontinuation of the trial

**EUDRACT-Nr.:** 2007-005548-25

**Full Titel of the CT:** Prospective, randomised (using minimisation), double-blind, placebo controlled study to evaluate the safety and efficacy of human normal immunoglobulin as a prophylactic agent against infections in patients with high grade gliomas (RNOP-12)

## **Trial was never initiated**

The study never started due to the fact, that the company had not provided the medication for this study.
