

17/09/2019

Project Title - Systemic sclerosis associated interstitial lung disease: A longitudinal observational study assessing optimum treatment regimens.

EudraCT number - 2008-000224-27

Sponsor – The Newcastle upon Tyne Hospitals NHS Foundation Trust

Chief Investigator - Dr Bridget Griffiths

The above study stopped early due to equipment issues on 13/07/2011.

Whilst the full results were not published within a medical journal, results were presented through a poster at the 2010 British Society of Rheumatology Conference and the abstract for this was published within Rheumatology, which can be found here - Volume 49, Issue suppl_1, 1 April 2010, Pages i111–i115 <https://doi.org/10.1093/rheumatology/keq726>
