

Premature termination of a Clinical Trial

Full title of the clinical Trial:

Fentanyl for the treatment of dyspnea in patients with chronic heart failure

EudraCT Number: 2008-000712-33

Sponsor: Medical University of Graz

Represented by (name): Prof. Friedrich Fruhwald

**Reason for premature termination
of the clinical trial:**

The trial was never started because the manufacturer of transmucosal fentanyl prohibited the use of fentanyl for study purposes.

Study results (if available):
