

Title of Trial: A multinational, multicenter, exploratory pharmacogenomics trial to test the importance of identified genetic markers, and potentially identify new markers of various ovarian responses to GONAL-f® treatment in women undergoing assisted reproduction technology (ART).

Investigational Product: GONAL-f®

Trial No.: 28612

Study Centers: Not available

Trial Initiation Date: 30 December 2008

Trial Completion Date: 15 April 2009

Development Phase: Phase 4

Publication (reference): None

Study Objectives: Data not available

Methodology: Data not available

Number of Subjects (Planned and Analyzed): Data not available

Diagnosis and Main Criteria for Inclusion/Exclusion: Data not available

Study Treatment: Data not available

Criteria for Evaluation: Data not available

Statistical Methods: Data not available

Results: Data not available

Conclusions: Data not available

Due diligence was done and all potential information sources have been exhausted. No source documents for this study were identified. Due to non-availability of clinical study reports and synopses, results were not posted in EudraCT database
