Protocol No.: DPM-B-305

**23 November 2009**

**NOTIFICATION OF END OF TRIAL**

*“A phase III multicentre, randomised, parallel, controlled, double blind study to investigate the safety and efficacy of inhaled mannitol over 12 months in the treatment of bronchiectasis.”*

Dear Sir/Madam,

Please find enclosed a Notification of End of Trial for the above-mentioned trial with reference EudraCT No. 2008-002644-42.

The initial DPM-B-305 clinical trial application was proposed under EudraCT No. 2008-002644-42, however it was never commenced. The sponsor proposed significant and extensive changes to the protocol and so took the decision to submit a new clinical trial application under a new EudraCT No.

The date of End of Trial is reported as 19 December 2008, to coincide with the date of issue of the new EudraCT No.

**Please Note:** This notification does NOT concern trial DPM-B-305, as approved under EudraCT No. 2008-008731-28, which is currently ongoing in the UK.
