To WHOM IT MAY CONCERN

June 7 2022

As far as I concern, I certify that the study EudraCT 2008-006053-41 approved by our Local Ethical Committee having the code 096/2008/O/Sper and entitled " Estrogeni, fitoestrogeni o agopuntura nella terapia dei sintomi della menopausa fisiologica (MEFA 2008)" proposed by Dr. Giorgio Orsoni, who retired from work since 2016, has never been initiated. At that time I was not the Director of the Clinic, therefore I cannot explain the reason why the study has never started.
