Dear EMA

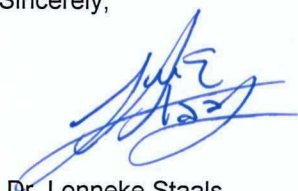

On behalf of prof. dr. G.J. Scheffer as the PI/Sponsor of this study in the Radboudumc, Nijmegen, the Netherlands, I hereby confirm that the screening and inclusion of subjects in the following clinical trial protocol: "Evaluation of the efficacy and safety of sugammadex (Bridion) in children with renal failure." with EudraCT number **2008-008246-20**, has never started.

The reason for this is that the CMO Arnhem-Nijmegen has not approved this study.

No subject data has been collected.

We hope this information is satisfactory to finalize results posting.

Sincerely,

Dr. Lonneke Staals
