Title: Amisulpride versus Placebo in Functional Dyspepsia with delayed gastric emptying

EudraCT number: 2009-010547-13

UZLeuven Snumber: S51711

This study was prematurely stopped due to very slow recruitment during the last years. The last patient went out of the trial on 23/12/2024.

39 of the 42 randomized patients completed the study. Data were analyzed but not yet published. Study results can be found in the attached abstract submitted for DDW on 01/12/2024.

Yours sincerely,

Prof. Dr. J. Tack
