

EudraCT Number:

~~2012-004807-10~~ 2009-012200-98 22.09.2021  
CB

Full title of the trial:

Open-label, prospective, randomized, parallel group study investigating a CNI-low dose regimen with Sandimmun® Optoral and Certican® in comparison to standard immunosuppressive therapy in renal transplant patients with creeping creatinine

Sponsor's Protocol Code:

yCAN

Sponsor:

University Medical Center Hamburg-Eppendorf

Coordinating Investigator:

Prof. Dr. Friedrich Thiass

#### Statement of the Coordinating Investigator

This is to confirm that the above mentioned trial yCAN never recruited any patient.

The study was planned as a single center trial with dialysis centers as recruiting sites and a flying study nurse. This concept was not feasible. The option to conduct the study as a multicenter study could not be realized; therefore, the study was terminated prematurely.

An early termination, end of trial notification was submitted on 12.09.2012.

Prof. Dr. Friedrich Thiass
