Title: A randomized double-blind placebo controlled trial evaluating the effect of esomeprazole (nexiam) 40 mg twice daily in subjects with chronic unexplained cough

EudraCT number: 2009-012505-18

Intern UZLeuven Snumber: S51727

This study was stopped because the catheter for the ambulatory esophageal manometry was broken and could not be repaired or replaced.

Last patient last visit (LPLV) took place on 05/08/2019.

No study results available.

Yours sincerely,

Prof. Dr. J. Tack
