

Title: A randomised, double-blind, multi-centre, placebo controlled parallel group study to evaluate the efficacy and tolerability of a new Ibuprofen gel in patients with acute sports-related traumatic blunt soft tissue injury/contusion

EudraCT number: 2009-018017-40

Sponsor's protocol number: NL0919

The sponsor decided not to continue with the above clinical trial after it was on hold. No patients were enrolled in the study.

At the same time, the study was deregistered at the central and participating ethics committees.

Dear Sir/madam

This letter is to confirm that Reckitt Benckiser will not be going ahead with study NL0919 (Project Bronson efficacy study). Therefore please can CRM notify the Regulatory Authorities and Ethic Committee of the closure of the CTA (EudraCT number 2009-018017-40) approved by BfArM, May 2010.

Should you have any questions please do not hesitate to contact me.

Yours faithfully

Emma Field
Clinical Project Manager
