12.9.2022

EudraCT number: 2010-020193-42

Sponsor's ref: HD/10/058

Full title: A comparative study of the effects of Liraglutide and Acarbose on glycaemic control, weight and Health Related Quality Of Life (HRQOL) in Overweight type 2 Diabetic patients on Oral Hypoglycaemic Agents (OHAs) + high doses of insulin.

Date of early termination of trial: 29/01/2015

Details:

Due to advancement in Diabetes management, it is almost impossible now to recruit any more patients. We do not think it will be possible to complete this study with full recruitment.

All patients have completed the study. No harm to patients as a result of early termination of study.

Yours sincerely

R&D Manager
Hywel Dda University Health Board
