

To whom it may concern,

The study: "An open study to evaluate efficacy, safety and tolerability of OxyContin (oxycodone SR) in patients with postoperative pain after knee surgery. "

Protocol KA0752010 – EudraCT 2010-020919-37 prematurely ended on 31/12/2011 due to organizational reasons.

Yours sincerely,

A handwritten signature in blue ink, consisting of a large, stylized loop followed by a smaller loop and a trailing flourish.
