To EudraCT team

To whom it may concern,

Regarding the following study:

<b>EudraCT number</b>	<b>Sponsor code</b>	<b>Title</b>
2010-024402-35	1403/WSHT/2010	Clinical effectiveness of Transversus Abdominis Plane (TAP) block as postoperative analgesic in patients undergoing laparoscopic colorectal surgery: a double blinded randomised controlled trial

On behalf of the chief investigator, I would like to report that the study never commenced and therefore there are no findings to report.

Sincerely,

Christina
