Trial Summary- EudraCT No. 2011-001187-21

Study Identifiers:

<u>EudraCT No</u>	<u>Sponsor Code</u>	<u>Title:</u>
2011-001187-21	SCRM-001	A Phase I/II, Open Monocentric Study To Evaluate The Safety And Efficacy Of An Autologous Tissue-Engineered Vascular Graft In Pediatric Patients Requiring Reconstruction Of Right Ventricle Outflow Tract.

The study has been prematurely ended due to technical issues in relation to the in-situ tissue engineering of the graft, which could not be resolved with reasonable efforts sand in a reasonable time frame. No study site has been activated and no subjects have been recruited. The respective decision has been taken by the sponsor in 2013.
