

4. Secondary Endpoint: Overall Response Rate_ITT Population

The rate of overall response was measured as the response rate from randomization until the day of documented complete response (CR) or partial response (PR) (whichever status was recorded first).

Table 4.1: Statistical Analysis - Overall Response Rate

ITT Population n = 120	Test		
	Statistic	p-Value	Comment
Overall Response Rate	-	0.854	Fisher's Exact Test

Figure 4.1: Overall Response Rate
