DATANURSE

D. De Clippeleir  
E. Van Deurzen

Dear,

With regard to the results of the trial titled "Comparison of Volulyte versus Tetraspan in patients undergoing cardiopulmonary bypass", Sponsor code ANES002 and EudraCT number 2011-003321-99, we send you this letter to inform you that this trial has prematurely ended, due to the inability to recruit enough patients. The small data batch that was collected did not contain sufficient data to perform analysis or draw any conclusions.

Sincerely yours,"

Jan Poelaert
