

To whom it may concern,

The study: "Plasma protein binding characteristics of voriconazole in specific subsets of patients" (EudraCT: 2013-000559-42) never started due to organizational reasons. On 31/05/2013, it was decided to terminate the study.

Yours sincerely,

Prof. dr. apr. Isabel Spriet

A handwritten signature in black ink, reading "Isabel Spriet". The script is cursive and elegant, with the first letter 'I' being particularly large and stylized.
