

To whom it may concern,

The study: "Acute effects of Sildenafil on the hemodynamics, Right Ventricle performance and cyclic GMP concentration in Heart failure patients with preserved left ventricular ejection fraction and patients after heart transplantation (SIRVEH study)" (EudraCT: 2013-001659-10) prematurely ended on 31/12/2017 due to the low inclusion rate.

Yours sincerely,

dr. Agnieszka Ciarka

A handwritten signature in black ink, appearing to read 'A. Ciarka', with a large, stylized initial 'A'.
