

Dear,

We would like to inform you that, unfortunately, we are unable to upload the results for the clinical study "*Lanreotide in the treatment of therapy resistant gastro-oesophageal reflux disease*" at this time.

Due to challenges encountered during the recruitment process, we were unable to complete enrollment and gather the necessary data to proceed with the study. Despite our efforts, the recruitment targets were not met, which has prevented us from obtaining results for analysis.

On behalf of UZ Brussels.

Department of gastro-enterology.
