

RE:

EudraCT number	Sponsor code	Title
2014-000669-39	URU04	Endoscopic treatment of neoplasia in the upper urinary tract and the value of fluorescence guided endoscopic follow up.

The above study has been prematurely ended because it was impossible to include patients. One patient accepted to enter the study but was not eligible. There is no data generated in the study.

The study has been reported ended to relevant Danish health authorities.

Kind regards
