Title: IS THE ABSENCE OF PAN-COLONIC PRESSURIZATIONS A RELEVANT PATHOPHYSIOLOGICAL MECHANISM IN A SUBGROUP OF PATIENTS WITH CHRONIC IDIOPATHIC CONSTIPATION?

EudraCT number: 2014-001384-12

This study was never started because the involved researcher (PhD student/post-doc) left the study team for another job opportunity.

There are no study results available.

Yours sincerely,

Prof. Dr. J. Tack
