

**Trial ID:** P-Monofer-IDA-02

**EudraCT number:** 2014-001518-25

**NCT number:** NCT02172001

**Trial Title:** A phase III, randomised, double-blind, comparative study of intravenous iron isomaltoside 1000 (Monofer<sup>®</sup>) against placebo in subjects with iron deficiency anaemia and who are intolerant or unresponsive to oral iron therapy

After discussions with competent authorities in relation to the design of the P-Monofer-IDA-02 trial, the sponsor, Pharmacosmos, decided to terminate the trial, as it was found that the design was not adequate for the purpose. No subjects were enrolled. Instead, another trial, the P-Monofer-IDA-03 (FERWON-IDA, NCT02940886), was planned and carried out.
