

Figure S3. SF-36 component score spider charts

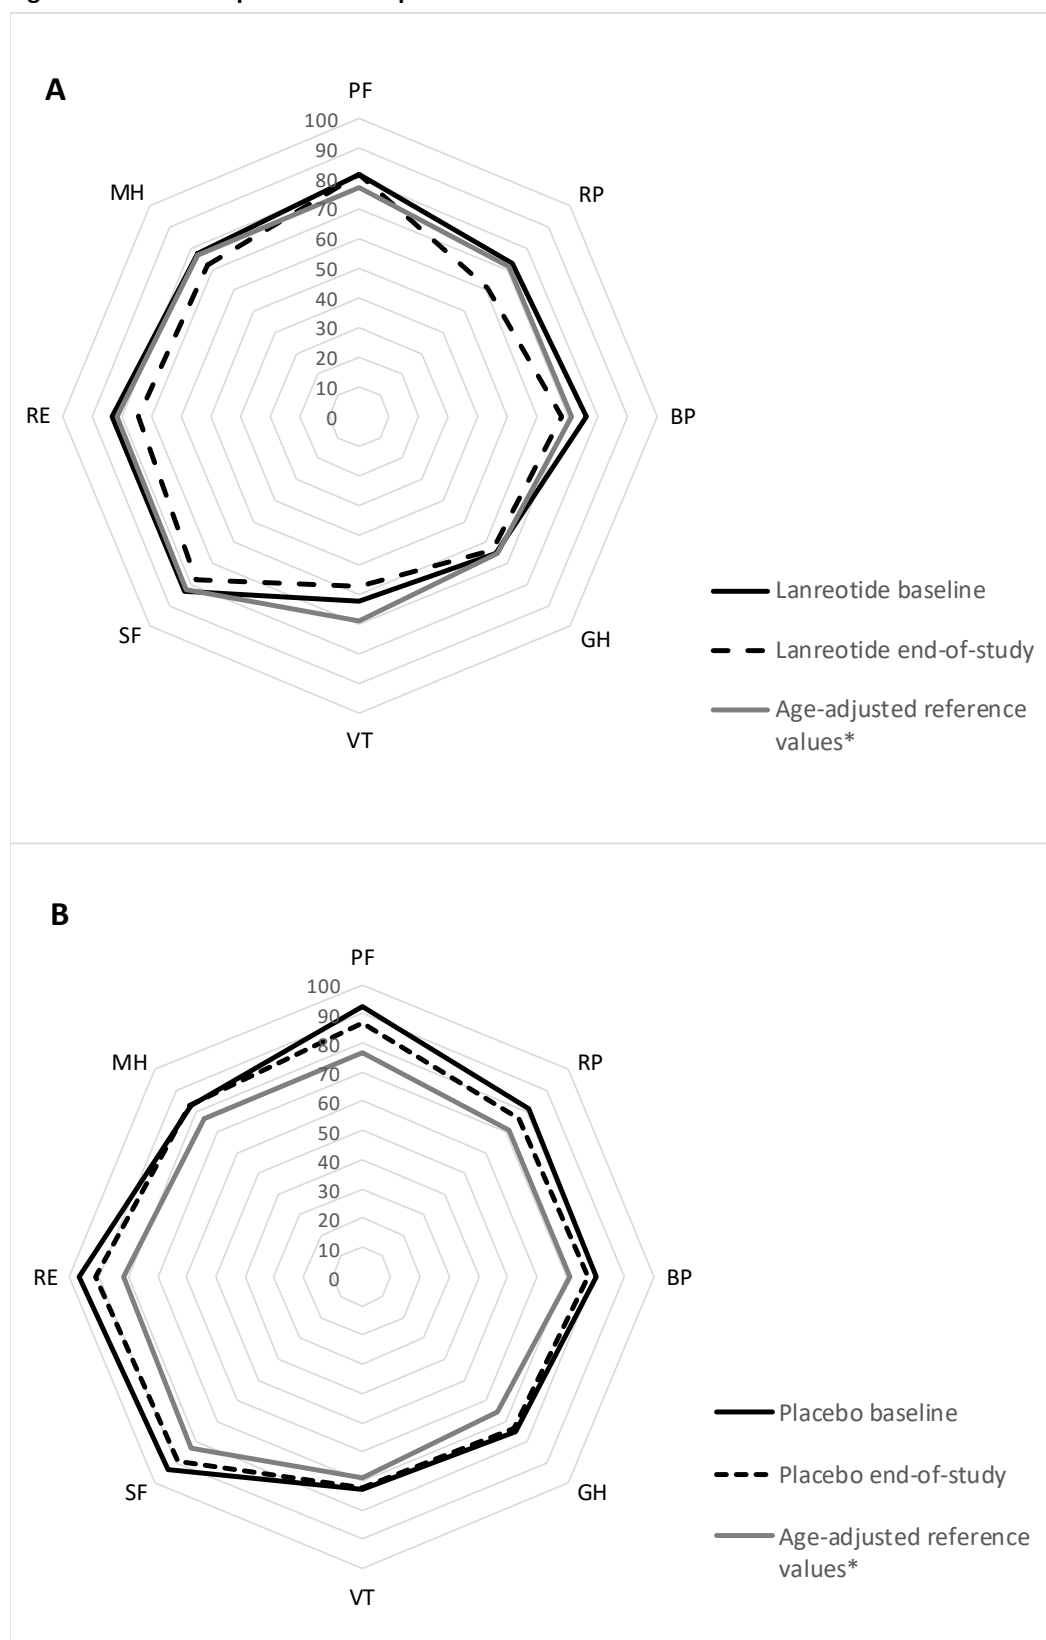

Figure S3. Spider plots of mean SF-36 component scores at baseline and end-of-study for **(A)** lanreotide group, and **(B)** placebo group. *Age-adjusted reference values were derived from Aaronson et al. [21]. PF=physical functioning, RP=role limitations due to physical health problems, BP=bodily pain, GH=general health perceptions, VT=vitality, SF=social functioning, RE=role limitations due to emotional problems, MH=general mental health.
