

TRIAL IDENTIFICATION

EudraCT number :	2015-005314-29
Sponsor's protocol code number:	QTM/OMN0115
Full title of the trial :	Randomized, open-label, two parallel group clinical trial, conducted under blinding evaluator conditions to compare the efficacy and tolerability of preservative-free formulation of Latanoprost 50µg/ml eye drops vs. Xalatan in patients with open-angle glaucoma or hypertension ocular.

Reason for the premature interruption of this study

This clinical trial did not start recruiting any patient. Due to a business decision of the Sponsor (OmniVision) this clinical trial was terminated prior to any study patient related activity.
