

Dear recipient

As sponsor of the trial

2016-002105-18 Laboratory measurement of direct oral anticoagulants on patients with atrial fibrillation

I declare that the trial was prematurely interrupted. We were unable to recruit patients as the local clinicians couldn't participate in the trial.

No patients were recruited, so we do not have any results to share either.

In Helsinki, 22th October 2024, on behalf of the whole study group

**Tuukka Helin, MD, PhD**

Specialist in Clinical Chemistry

HUS Diagnostics center,  
Clinical chemistry
