CHRU de TOURS
06/08/2022

Dear EudraCT registration team,

Acting on behalf of the sponsor, I would like to inform you that the results of the trial referenced below have not been published in EudraCT. In fact only partially results are available.

EudraCT number	Sponsor code	Title	Sponsor name
2016-002223-28	PHAO14-CH/TEPTAU	Tau brain imaging in typical and atypical Alzheimer's Disease (AD)	CHRU de Tours

Results are partially available for several reasons:

- The COVID pandemic has had a strong impact on the Sponsor's research activity. All studies were suspended in March 2020 and then a phased resumption was implemented beginning in June 2020. The PHAO14-CH/TEPTAU study was not a priority.
- The psychometric analyses are not completely available. And some analyses are still pending due to human resources problems.

The complete results will be posted in EudraCT as soon as possible.

Yours sincerely,

Julien LE BONNIEC
Director of Research
