

14.2.2 Secondary endpoints

Figure 14.2.2.2: Cumulative incidence of acute GvHD of grade II-IV and death before acute GvHD of grade II-IV from SCT - Full Analysis Population

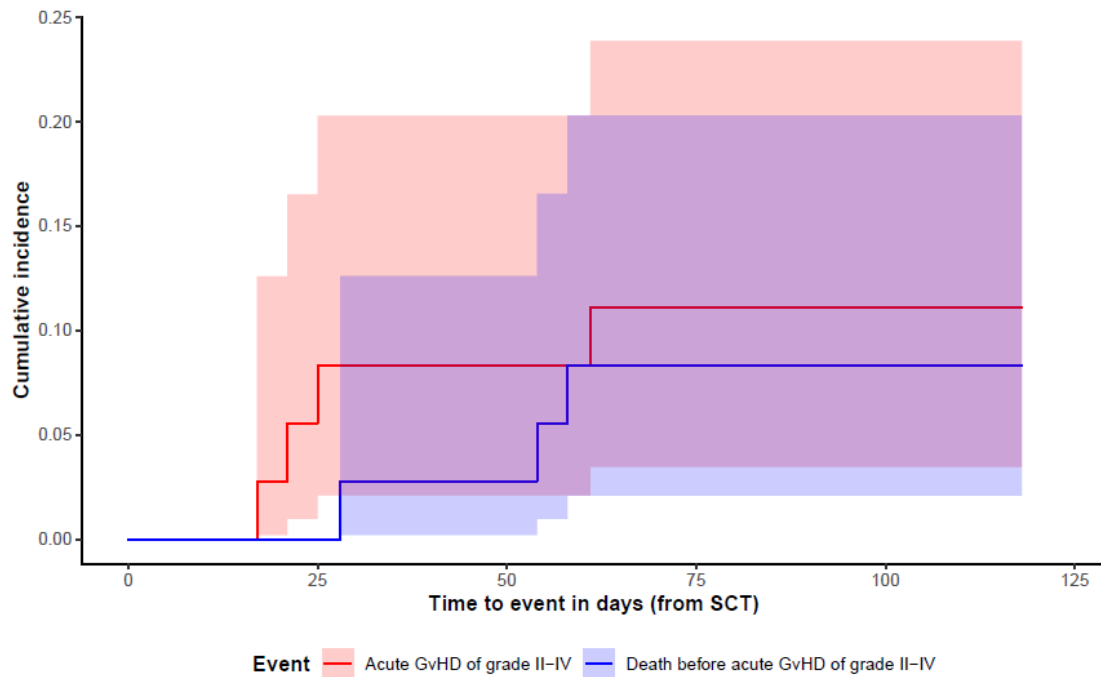

Table 14.2.2.2: Cumulative incidence of acute GvHD of grade II-IV and death before acute GvHD of grade II-IV at 100 days from SCT - Full Analysis Population

Time	Event	Cumulative incidence Function Estimate	Standard Error	95% Lower confidence interval	95% Upper confidence interval
100 days	Acute GvHD of grade II-IV	0.111	0.053	0.034	0.238
	Death before acute GvHD of grade II-IV	0.083	0.047	0.021	0.203

GvHD: Graft-versus-Host Disease. All numerical values are rounded to 3 decimal places.

Figure 14.2.2.3: Cumulative incidence of acute GvHD of grade III/IV and death before acute GvHD of grade III/IV from SCT - Full Analysis Population

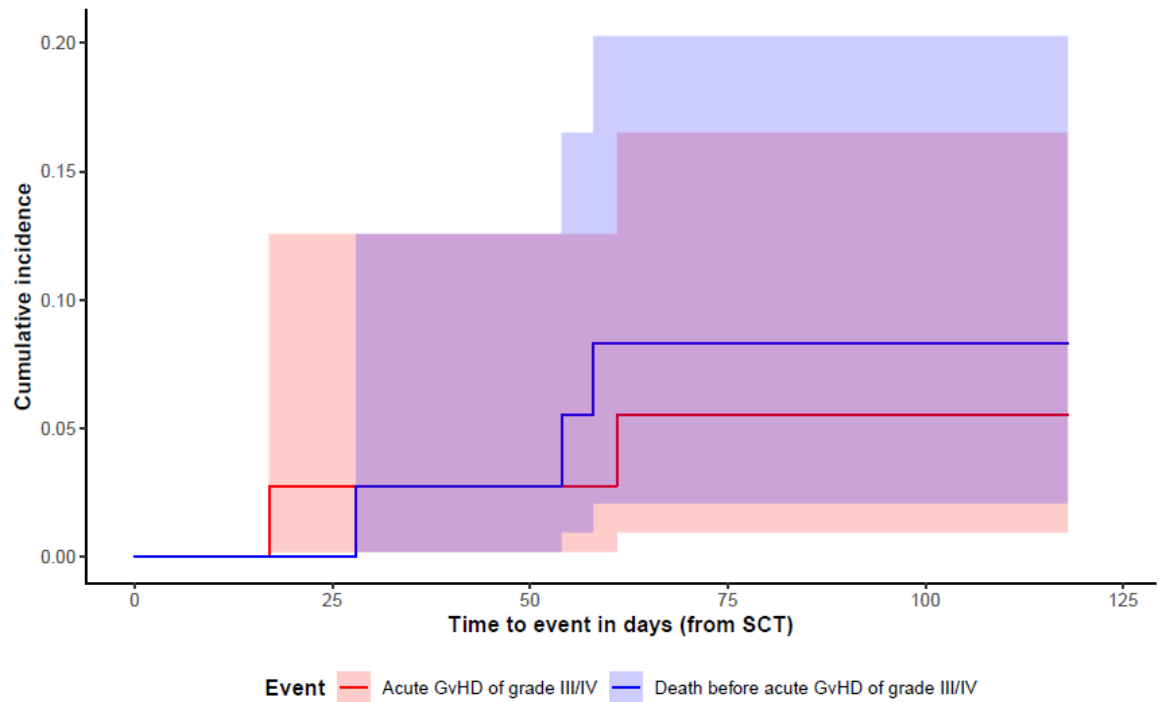

Table 14.2.2.3: Cumulative incidence of acute GvHD of grade III/IV and death before acute GvHD of grade III/IV at 100 days from SCT - Full Analysis Population

Time	Event	Cumulative incidence Function Estimate	Standard Error	95% Lower confidence interval	95% Upper confidence interval
100 days	Acute GvHD of grade III/IV	0.056	0.039	0.010	0.165
	Death before acute GvHD of grade III/IV	0.083	0.047	0.021	0.203

GvHD: Graft-versus-Host Disease. All numerical values are rounded to 3 decimal places.
