

Premature termination of a Clinical Trial

Full title of the clinical Trial:

Assessment of vertigo control rate following common treatments in Menière's disease

EudraCT Number: 2019-001540-22

Sponsor: Medical University of Vienna

Represented by (name): Univ.Prof.Dr. Wolfgang Gstöttner

Reason for premature termination of the clinical trial:

Due to the Covid pandemic, the control appointments and the follow up could no longer be carried out in the specified time windows and not enough patients could be recruited.

Study results (if available):

none
