Re: Premature Termination of Study - no study results available

Frankfurt am Main, 18-MAR-2021

Dear Ladies and Gentlemen,

Herewith we would like to confirm that the ImmunoHedge study mentioned above was prematurely terminated on 25-JAN-2022, due to organizational issues. At the time of termination there were no study sites initiated, and respectively, no patients screened or enrolled in this clinical trial.

Therefore, there are no study results to present.

The termination letters were sent to the national competent regulatory authority (here: Germany - Bundesinstitut für Arzneimittel und Medizinprodukte) as well as to all concerned Ethics Committees.

In case you need further information or documents, please let us know.

Kind regards,

Dr. Mathias Uhlig
