Result posting of ARGX-117-2001 (2020-001546-19)

Protocol title A First-in-Human Study in Adult Subjects Hospitalized with COVID-19 Infection to Investigate the Safety, Tolerability, Pharmacokinetics, Pharmacodynamics, Immunogenicity, and Efficacy of ARGX-117

Protocol number ARGX-117-2001

Dear Madam/Sir

The ARGX-117-2001 has been prematurely ended. The sponsor has decided to change strategy for the above mentioned compound in this disease area. It was decided to no longer continue the study ARGX-117- 2001/ARGOVID. No subjects have been enrolled in the study, as such no (partial) results are available.

Yours sincerely
