Study Code: PDY16963	EUDRACT Number: 2020-003120-17
Title of the study: A 3-part study to evaluate the efficacy and safety of venglustat in combination with Cerezyme in adult and pediatric patients with Gaucher disease Type 3 (GD3) with open-label long-term treatment	

Study Status: **No patient screened, no patient randomized, no patient exposed to the treatment at the time of the study premature stop.**

Reason of early termination: **This cohort is being removed (no patient screened) because of strategic changes in the GD3 development program, considering the rarity of the disease and regulatory feedback.**
