

Study title: Effect of citalopram on chest pain in patients with functional chest pain

Amsterdam UMC, location AMC  
Gastroenterology and Hepatology  
Meibergdreef 9  
1105 AZ Amsterdam  
The Netherlands

Subject: Clinical trial results in EudraCT

Amsterdam, 11-10-2022

Dear Sir/Madame,

Above referenced clinical trial has ended prematurely due to low patient recruitment during the course of the trial. Therefore, publication of results is deemed not feasible. For recruited subjects, no safety issues or (S)AE's were identified.

Yours sincerely,

Thijs Kuipers, research fellow

AMC, Meibergdreef 9, 1105 AZ Amsterdam, The Netherlands
