

Strains tested in HAI assay	Vaxigrip Tetra® 2021-2022		Vaxigrip Tetra® 2022-2023	
	Included strains	Overlap with HAI testing	Included strains	Overlap with HAI testing
A/Victoria/2570/2019 (H1N1)	A/Guangdong-Maonan/SWL 1536/2019 (H1N1)	The vaccine strain is antigenically close to the tested strain.	A/Victoria/2570/2019 (H1N1)	Both strains match exactly.
A/Tasmania/503/2020 (H3N2)	A/Hong Kong/2671/2019 (H3N2)	Both strains are part of the H3N2 lineage but are antigenically distinct.	A/Darwin/9/2021 (H3N2)	Both strains are part of the H3N2 lineage but are antigenically distinct.
B/Washington/02/2019 (B/Victoria lineage)	B/Washington/02/2019 (B/Victoria lineage)	Both strains match exactly.	B/Austria/1359417/2021 (B/Victoria lineage)	Both strains belong to the B/Victoria lineage and are closely related. Their overlap is likely high.
B/Phuket/3073/2013 (B/Yamagata lineage)	B/Phuket/3073/2013 (B/Yamagata lineage)	Both strains match exactly.	B/Phuket/3073/2013 (B/Yamagata lineage)	Both strains match exactly.
