EudraCT Number: 2021-005694-87

Protocol Code: UCDCRC/21/01

Study Title: A Randomised Pilot Study of the Safety and Efficacy of Tofacitinib (Xeljanz) in Improving Endoscopic Outcomes in Subjects with Ulcerative Colitis with Active, Chronic, Antibiotic Dependent or Refractory Idiopathic Pouchitis (Healing of Antibiotic Refractory Pouchitis with Xeljanz): HARP-X

Sponsor: University College Dublin

For and on behalf of University College Dublin (UCD), please be advised that the above-mentioned trial was terminated early due to the funder's decision to discontinue all funding and drug supply. Due to the lack of alternative funds to the sponsor to continue with the clinical trial, it was terminated on 19 March 2024.

Taking into account that only 1 participant was enrolled into the study, trial results within EU Clinical Trials Register will not be published to maintain the data confidentiality of this participant.

Yours sincerely,

Gráinne O'Reilly
Director of Trial Operations
UCD Clinical Research Centre
