

Figure 7.13: Longitudinal lineplot of Delta-ADAS-cog values for visits 2-11 (year 0, 0.5, 1, 1.5, 2, 2.5 and 3). For the calculation of Delta-values we used the first visit as reference.

We splitted patients according to the 4 groups: Placebo, Simvastatin 60 mg 1<sup>st</sup>, Simvastatin 20 mg and Simvastatin 60 mg 2<sup>nd</sup>.

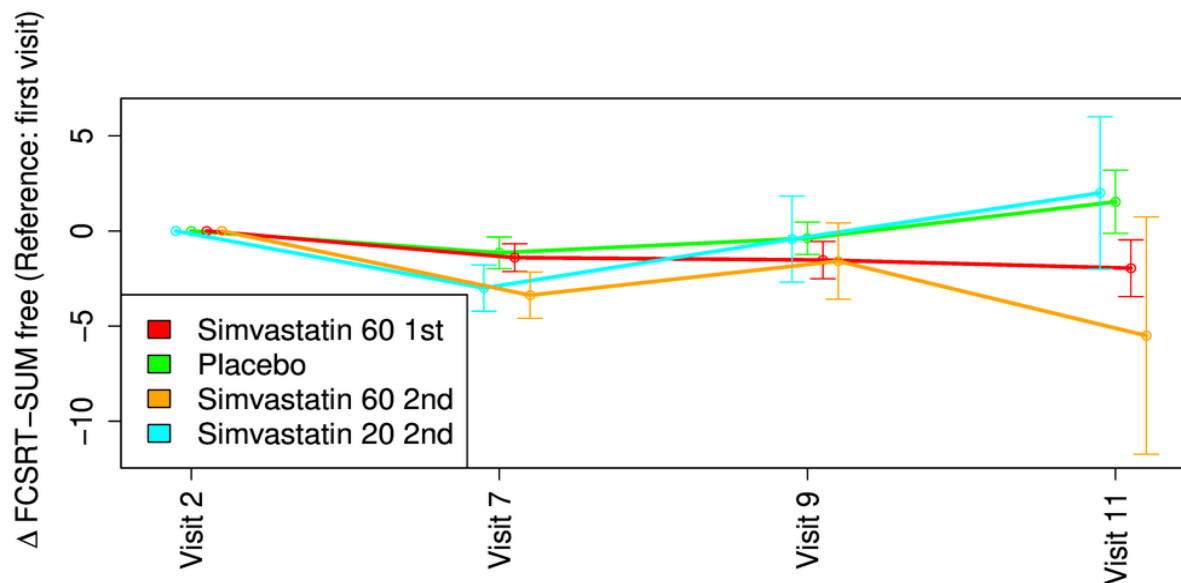

Figure 7.14: Longitudinal lineplot of delta-FCSRT ('FCSRT Freie Wiedergabe') values for visits 2, 7, 9 and 11 (year 0, 1, 2 and 3). For the calculation of delta-values we used the first visit as reference. We splitted patients according to the 4 groups: Placebo, Simvastatin 60 mg 1<sup>st</sup>, Simvastatin 20 mg and Simvastatin 60 mg 2<sup>nd</sup>.

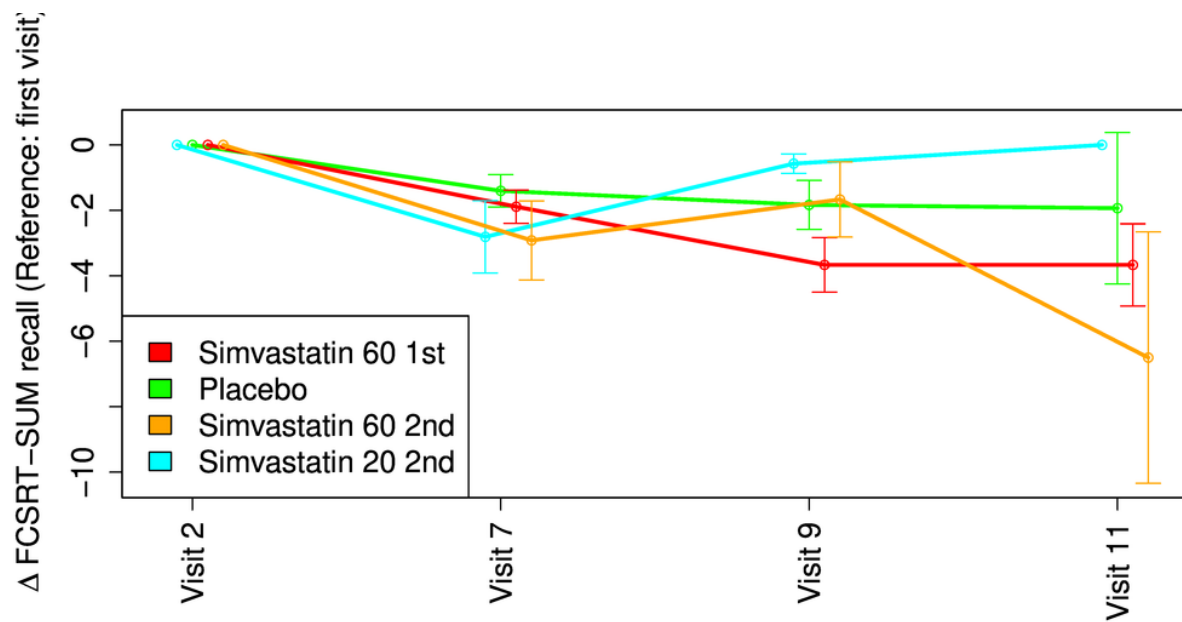

Figure 7.15: Longitudinal lineplot of delta-FCSRT ('FCSRT Summe Wiedergabe') values for visits 2, 7, 9 and 11 (year 0, 1, 2 and 3). For the calculation of delta-values we used the first visit as reference. We splitted patients according to the 4 groups: Placebo, Simvastatin 60 mg 1<sup>st</sup>, Simvastatin 20 mg and Simvastatin 60 mg 2<sup>nd</sup>.
