

## PROGRESSION FREE SURVIVAL ANALYSIS – CENSORING RULES\*

Rule	Description of patient situation	Progression or censoring at	Progression status
1	Progressed during study treatment, before surgery with curative intent, if any, or deceased due to progression during study treatment.	Date of assessment of progression or date of death due to progression, if progression is not documented prior to death.	Progressed
3	Progressed after study treatment but before start of any other anti-cancer treatment or surgery with curative intent, or deceased due to progression after study treatment but no prior anti-cancer treatment or surgery.	Date of assessment of progression or date of death due to progression if progression is not documented prior to death.	Progressed
4.1	Deceased during treatment within 60 days from last scan where progression was NOT observed. Cause of death is other than “disease progression”.	Date of death	Progressed
4.2	Deceased after end of study treatment, within 60 days from last scan where progression was NOT observed. Cause of death is other than “disease progression”.	Date of death	Progressed
12	Not progressed, still alive, not having started other anti-cancer treatment, not having undergone surgery with curative intent	Date of last available tumour assessment, with a maximum of 3 years after database lock	Not progressed/Censored
13	Not progressed during the study treatment and having started a new anti-cancer treatment in FU before any indication of progression or surgery with curative intent.	Date of start of new anti-cancer treatment  Alternative definition: - if progressed or deceased after the start of new anti-cancer treatment: Date of progression or date of death, whichever comes first - if not progressed or deceased after start of new anti-cancer treatment: Date of last available tumour assessment	Not progressed/Censored  Alternative definition: - Progressed - Not progressed/Censored
14	Progressed after undergoing surgery with curative intent, the surgery occurred before start of a new anti-cancer treatment, if any.	Date of surgery  Alternative definition: Date of progression after surgery or date of death due to progression if progression is not documented prior to death.	Not progressed/Censored  Alternative definition: - Progressed

Note: Overview limited to the situations encountered in the study, applicable rules only.
