

Clinical trial results:

Bevacizumab, Interleukin-2 and Interferon-alpha in metastathic renal cell carcinoma

Summary

EudraCT number	2009-012010-52
Trial protocol	DK
Global end of trial date	31 May 2017

Results information

Result version number	v1 (current)
This version publication date	03 December 2020
First version publication date	03 December 2020

Notes:

Paediatric regulatory details

Is trial part of an agreed paediatric investigation plan (PIP)	No
Does article 45 of REGULATION (EC) No 1901/2006 apply to this trial?	No
Does article 46 of REGULATION (EC) No	No

1901/2006 apply to this trial?

Notes:

Results analysis stage

Analysis stage	Final
Date of interim/final analysis	31 May 2017
Is this the analysis of the primary completion data?	Yes
Primary completion date	31 May 2017
Global end of trial reached?	Yes
Global end of trial date	31 May 2017
Was the trial ended prematurely?	No

Notes:

General information about the trial

Main objective of the trial:

Avastin as monotherapy has effect in mRCC. Avastin in combination with interferon-alfa (IFN-α) has significant efficacy in mRCC and has been approved by EMEA.
The present study assessed whether the combination of Interleukin-2 (IL-2) and IFN-α with Avastin may add efficacy in patients with mRCC with a tolerable safety profile.
Primary endpoint: Progression Free Survival

Protection of trial subjects:

No specific measures

Background therapy: -

Evidence for comparator: -

Actual start date of recruitment	26 October 2009
Long term follow-up planned	No
Independent data monitoring committee (IDMC) involvement?	No

Notes:

Population of trial subjects

Subjects enrolled per country

Country: Number of subjects enrolled	Denmark: 118
Worldwide total number of subjects	118
EEA total number of subjects	118

Notes:

Subjects enrolled per age group

In utero	0
Preterm newborn - gestational age < 37 wk	0
Newborns (0-27 days)	0
Infants and toddlers (28 days-23 months)	0
Children (2-11 years)	0
Adolescents (12-17 years)	0

Adults (18-64 years)	98
From 65 to 84 years	20
85 years and over	0

Subject disposition

Recruitment

Recruitment details: -

Pre-assignment

Screening details:

N/A

Period 1

Period 1 title	Overall trial (overall period)
Is this the baseline period?	Yes
Allocation method	Randomised - controlled
Blinding used	Not blinded

Arms

Are arms mutually exclusive?	Yes
Arm title	IL2/INF/BEV2
Arm description: -	
Arm type	Experimental
Investigational medicinal product name	bevacizumab
Investigational medicinal product code	
Other name	
Pharmaceutical forms	Infusion
Routes of administration	Intravenous use
Dosage and administration details:	
10 mg/kg IV	
Arm title	IL2/INF
Arm description: -	
Arm type	Standard therapy
No investigational medicinal product assigned in this arm	

Number of subjects in period 1	IL2/INF/BEV2	IL2/INF
Started	59	59
Completed	59	59
