

Clinical trial results:

A prospective, multicenter, open-label extension of FUTURE 3 to assess the safety, tolerability and efficacy of the pediatric formulation of bosentan two versus three times a day in children with pulmonary arterial hypertension

Summary

Paediatric regulatory details

Is trial part of an agreed paediatric investigation plan (PIP)	No
Does article 45 of REGULATION (EC) No 1901/2006 apply to this trial?	No
Does article 46 of REGULATION (EC) No 1901/2006 apply to this trial?	Yes

Notes:

Results analysis stage

Analysis stage	Final
Date of interim/final analysis	26 September 2014
Is this the analysis of the primary completion data?	Yes
Primary completion date	13 August 2014
Global end of trial reached?	Yes
Global end of trial date	13 August 2014
Was the trial ended prematurely?	No

Notes:

General information about the trial

Main objective of the trial:

To evaluate the long-term safety, tolerability and efficacy of the pediatric formulation of bosentan two versus three times a day in children with pulmonary arterial hypertension (PAH).

Protection of trial subjects:

This clinical study was designed and conducted in accordance with the ICH Harmonized Tripartite Guidelines for GCP, with applicable local regulations, including the European Directive 2001/20/EC, the US CFR Title 21, and with the ethical principles laid down in the Declaration of Helsinki.

Only patients who performed the end of study assessments of the FUTURE 3 core study, who tolerated bosentan 32 mg dispersible tablets (pediatric formulation) during the core study and for whom continuation of bosentan treatment was considered beneficial by the investigator, were offered the opportunity to participate in the FUTURE 3 Extension trial.

Background therapy:

Patients receiving the commercial formulation of bosentan before entering the FUTURE 3 core study had to stop it and instead take the study drug (pediatric formulation of bosentan). Previous therapies for PAH were allowed at a stable regimen

Evidence for comparator:

not applicable

Actual start date of recruitment	08 March 2011
Long term follow-up planned	No
Independent data monitoring committee (IDMC) involvement?	Yes

Notes:

Population of trial subjects

Subjects enrolled per country

Country: Number of subjects enrolled	Poland: 5
Country: Number of subjects enrolled	Spain: 3
Country: Number of subjects enrolled	Czech Republic: 2
Country: Number of subjects enrolled	France: 5
Country: Number of subjects enrolled	Germany: 4
Country: Number of subjects enrolled	Hungary: 3
Country: Number of subjects enrolled	Italy: 1
Country: Number of subjects enrolled	Australia: 2
Country: Number of subjects enrolled	South Africa: 6
Country: Number of subjects enrolled	China: 6
Country: Number of subjects enrolled	Israel: 2
Country: Number of subjects enrolled	Ukraine: 1
Country: Number of subjects enrolled	Belarus: 3
Country: Number of subjects enrolled	Russian Federation: 10

Country: Number of subjects enrolled	United States: 2
Country: Number of subjects enrolled	Serbia: 5
Country: Number of subjects enrolled	Mexico: 1
Country: Number of subjects enrolled	India: 3
Worldwide total number of subjects	64
EEA total number of subjects	23

Notes:

Subjects enrolled per age group

In utero	0
Preterm newborn - gestational age < 37 wk	0
Newborns (0-27 days)	0
Infants and toddlers (28 days-23 months)	21
Children (2-11 years)	43
Adolescents (12-17 years)	0
Adults (18-64 years)	0
From 65 to 84 years	0
85 years and over	0

Subject disposition

Recruitment

Recruitment details:

Patients were recruited from 30 centers worldwide

Pre-assignment

Screening details:

Treatment groups assigned at randomization of FUTURE 3 core study were continued in the extension study.

Period 1

Period 1 title	core future 3 period (baseline)
Is this the baseline period?	Yes
Allocation method	Randomised - controlled
Blinding used	Not blinded

Arms

Are arms mutually exclusive?	Yes
Arm title	bosentan 2mg/kg b.i.d.

Arm description:

2 mg/kg bosentan was administered twice daily (morning and evening)

Arm type	Experimental
Investigational medicinal product name	bosentan
Investigational medicinal product code	ACT-050088
Other name	
Pharmaceutical forms	Dispersible tablet
Routes of administration	Oral use

Dosage and administration details:

The body weight-adjusted dose of the dispersible tablet was dispersed in a teaspoon of water (not mixed with food) before being administered orally twice a day (morning and evening)

Arm title	bosentan 2mg/kg t.i.d.
------------------	------------------------

Arm description:

2 mg/kg bosentan was administered 3 times a day (morning, afternoon, evening)

Arm type	Experimental
Investigational medicinal product name	bosentan
Investigational medicinal product code	ACT-050088
Other name	
Pharmaceutical forms	Dispersible tablet
Routes of administration	Oral use

Dosage and administration details:

The body weight-adjusted dose of the dispersible tablet was dispersed in a teaspoon of water (not mixed with food) before being administered orally three times a day (morning, afternoon and evening)

Number of subjects in period 1	bosentan 2mg/kg b.i.d.	bosentan 2mg/kg t.i.d.
Started	33	31
Completed	33	31

Period 2

Period 2 title	treatment extension period
Is this the baseline period?	No
Allocation method	Non-randomised - controlled
Blinding used	Not blinded

Arms

Are arms mutually exclusive?	Yes
Arm title	bosentan 2mg/kg b.i.d.

Arm description:

patients on 2 mg/kg bosentan b.i.d. during the FUTURE 3 core period continued with the same dose regimen (2 mg/kg, morning and evening)

Arm type	Experimental
Investigational medicinal product name	bosentan
Investigational medicinal product code	ACT-050088
Other name	
Pharmaceutical forms	Dispersible tablet
Routes of administration	Oral use

Dosage and administration details:

The body weight-adjusted dose of the dispersible tablet was dispersed in a teaspoon of water (not mixed with food) before being administered orally twice a day (morning and evening)

Arm title	bosentan 2mg/kg t.i.d.
------------------	------------------------

Arm description:

patients on 2 mg/kg bosentan t.i.d. during the FUTURE 3 core period continued with the same dose regimen (2 mg/kg, morning, afternoon and evening)

Arm type	Experimental
Investigational medicinal product name	bosentan
Investigational medicinal product code	ACT-050088
Other name	
Pharmaceutical forms	Dispersible tablet
Routes of administration	Oral use

Dosage and administration details:

The body weight-adjusted dose of the dispersible tablet was dispersed in a teaspoon of water (not mixed with food) before being administered orally three times a day (morning, afternoon and evening)

Number of subjects in period 2	bosentan 2mg/kg b.i.d.	bosentan 2mg/kg t.i.d.
Started	33	31
Completed	23	22
Not completed	10	9
Adverse event, serious fatal	2	1
Consent withdrawn by subject	1	1
Adverse event, non-fatal	6	5
administrative reason	1	-
PAH not the main etiology of PH	-	2

Reporting group description: patients on 2 mg/kg bosentan t.i.d. during the FUTURE 3 core period continued with the same dose regimen (2 mg/kg, morning, afternoon and evening)	
Subject analysis set title	all treated set
Subject analysis set type	Intention-to-treat
Subject analysis set description: "All Randomized" analysis set includes all patients assigned to a study treatment in FUTURE 3. The "All Treated" analysis set comprised all patients in the FUTURE 3 core study who received at least one dose of the study drug. Because the same patients were included in the "All randomized " and the "All Treated" analysis sets, only the "All Treated analysis set was used.	

Primary: Not applicable

End point title	Not applicable ^[1]
End point description: no primary endpoint was defined. As it is an exploratory study, all efficacy endpoints were considered as exploratory endpoints	
End point type	Primary
End point timeframe: not applicable	
Notes: [1] - No statistical analyses have been specified for this primary end point. It is expected there is at least one statistical analysis for each primary end point. Justification: Statistical analysis not applicable as no primary endpoint was defined for this exploratory study	

End point values	all treated set			
Subject group type	Subject analysis set
