

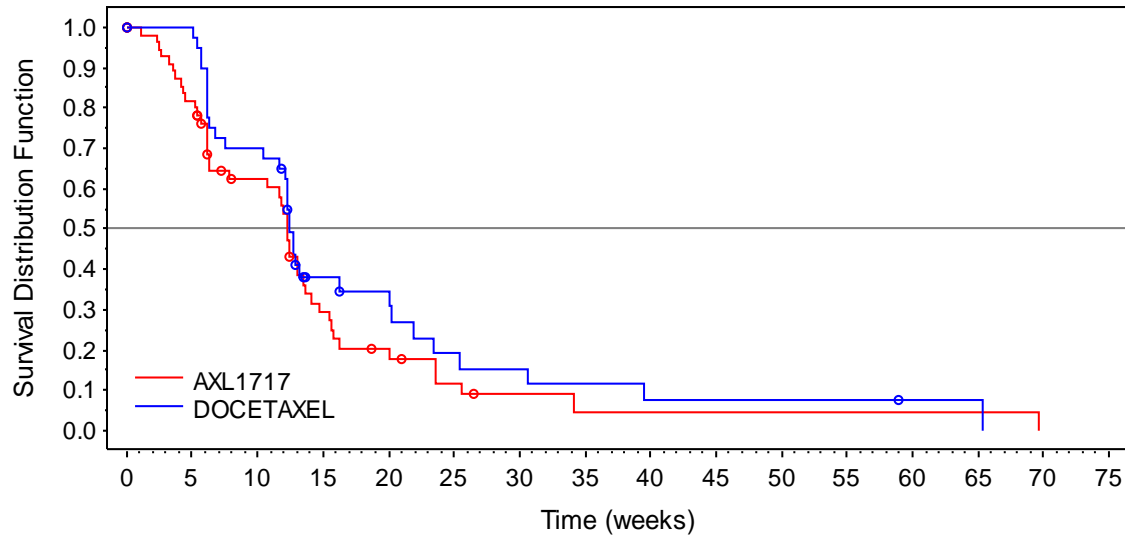

## Graphical Representation

**Figure 1**      **Kaplan-Meier Plot of Progression-Free Survival – Full Analysis Set**

AXL, N = 58; DCT, N = 41; log-rank test p-value = 0.3165, HR\* = 1.255

\*HR = hazard ratio for treatment effect (AXL vs. DCT) from univariate Cox regression model

AXL = AXL1717; DCT = docetaxel; HR = hazard ratio
