

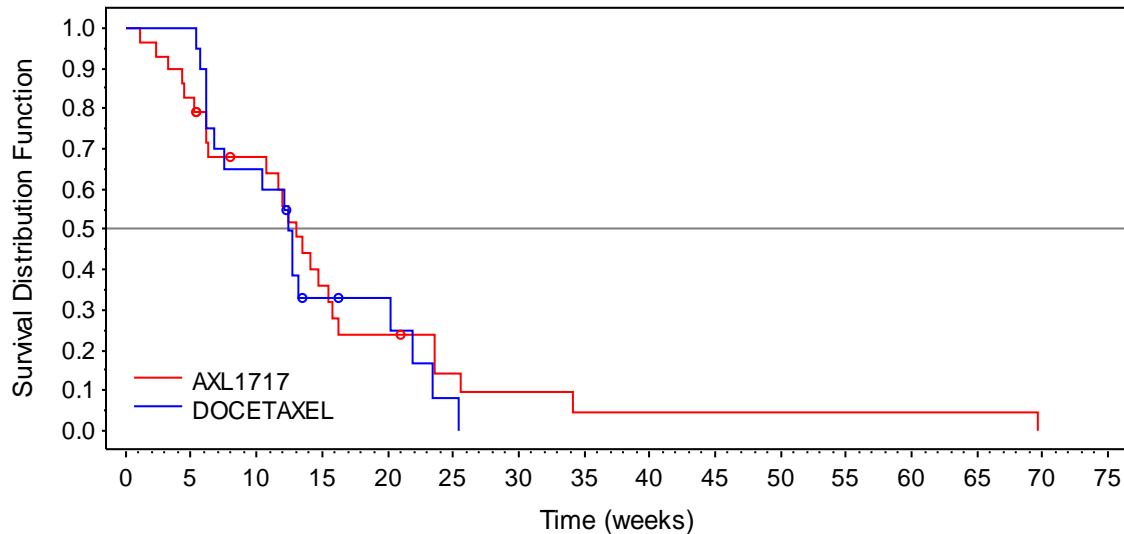

Graphical Representation

Figure 1 **Kaplan-Meier Plot of Progression-Free Survival - Adenocarcinoma Subtype – Full Analysis Set**

AXL, N = 29; DCT, N = 20; log-rank test p-value = 0.6146, HR* = 0.850

*HR = hazard ratio for treatment effect (AXL vs. DCT) from univariate Cox regression model

AXL = AXL1717; DCT = docetaxel; HR = hazard ratio
