

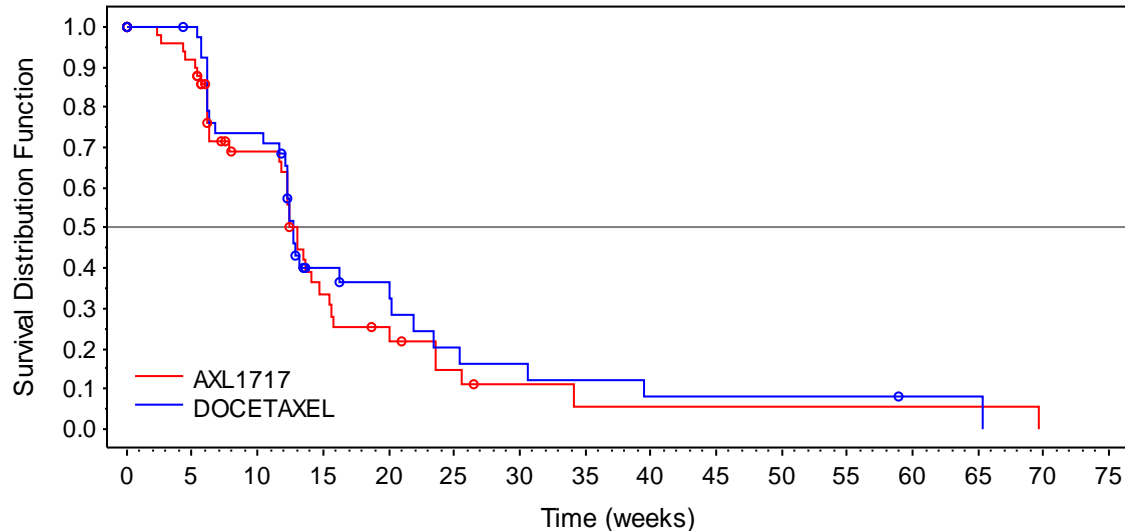

Graphical Representation

Figure 1 **Kaplan-Meier Plot of Time to Progression – Full Analysis Set**

AXL, N = 58; DCT, N = 41; log-rank test p-value = 0.6621, HR* = 1.112

*HR = hazard ratio for treatment effect (AXL vs. DCT) from univariate Cox regression model

AXL = AXL1717; DCT = docetaxel; HR = hazard ratio
