

Primary endpoint: Objective Response Rate (ORR)

Statistical analysis title	ORR		Analysis Type	Other
			Comment	
Statistical analysis description	ORR was estimated with its 80% confidence interval using Clopper and Pearson exact method.			
Comparison groups or subject analysis sets	SAR3419 + Rituximab			
Number of subjects in this analysis	45			
Analysis specification	Pre-specified			
Statistical hypothesis test				
P-value	Choose an item.	Value:_____	Comment	
Method [Required if P-value provided]	Choose an item.			
Parameter Estimate				
Parameter type	Other effect estimate: Percentage of responders			
Point estimate	31.1%			

Confidence interval	Level	Other: % 80% CI	Sides	2	Lower limit	22.0	Upper limit	41.6
Variability estimate	Choose an item.			Dispersion Value
