

## figure 4: changes of regulatory leukocyte subpopulations after MSC application

Initial value determined as 100%, then the change from day+0 (before application) analysed

A – change of CD123+ dendritic cells in the group with aGVHD

B – change of CD123+ dendritic cells in the group with cGVHD

C – change of T-regulatory cells in the group with aGVHD

D – change of T-regulatory cells in the group with cGVHD

E – change of CD11c+ dendritic cells in the group with aGVHD
