

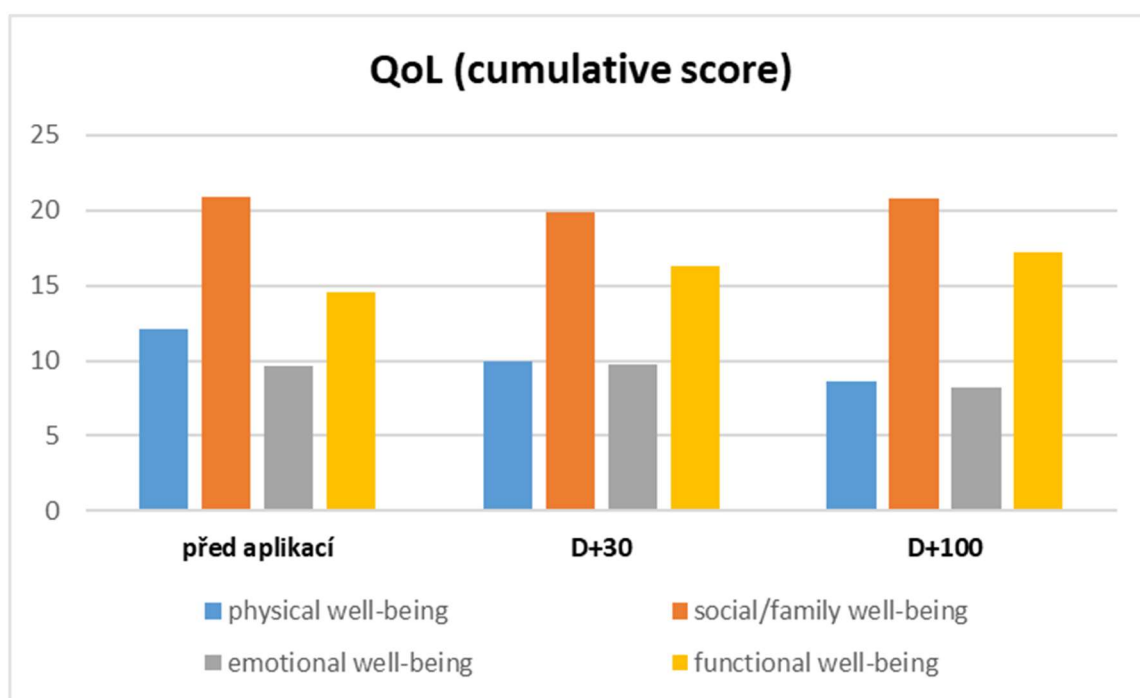

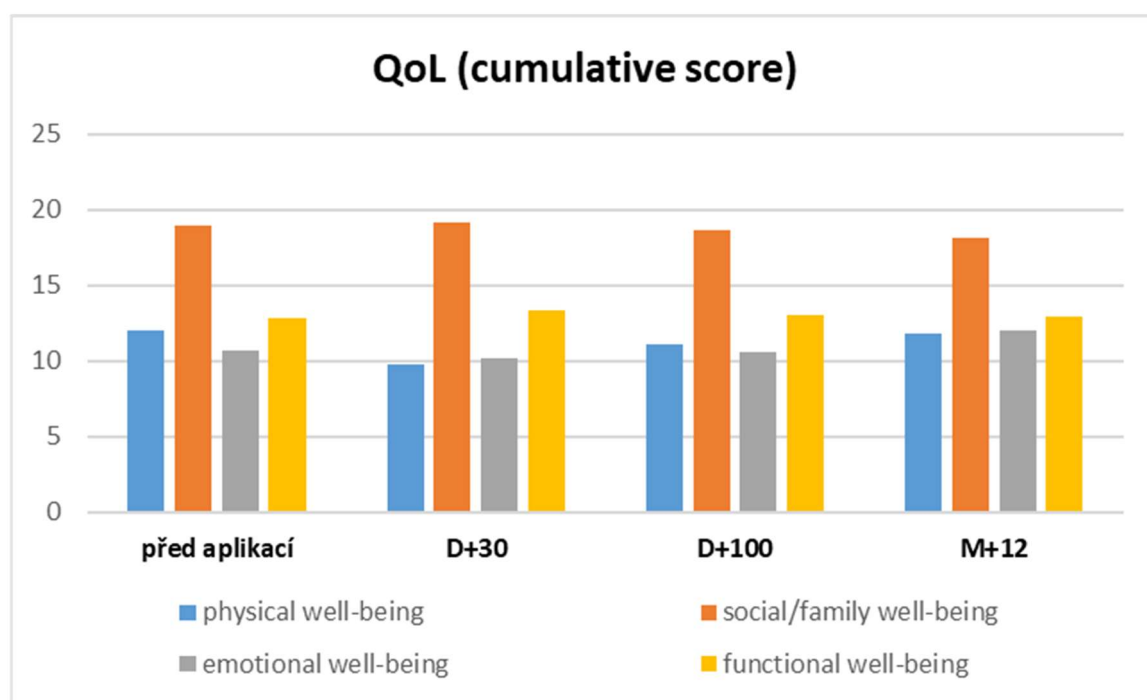

**figure 5. Functional Assessment of Cancer Therapy - General (FACT-G)**

**A. acute GVHD – timepoints D+0 to D+100**

Note: evaluated as the accumulation of scores for a given parameter for all patients adjusted by the number of patients in a given timepoint

**B. chronic GVHD – timepoints D+0 to M+12**

Note: evaluated as the accumulation of scores for a given parameter for all patients adjusted by the number of patients in a given timepoint
